

TRANSITION AGE YOUTH (AGE 18-24)
VULNERABILITY INDEX & SERVICE PRIORITIZATION DECISION ASSISTANCE TOOL
TAY-VI-SPDAT VERSION 1.0

STAFF INSTRUCTIONS:

Check HMIS to see if the person has already been referred to the appropriate Housing Priority List.

- If Yes, update the information in the Assessments tab on the client's profile, including but not limited to: information on chronic homelessness determination, disability information, and client contact information.
- If No, check to see if the person has completed a TAY-VI-SPDAT v.1.0.
 - If yes, update the critical information on the Assessments tab and make a referral to the appropriate priority list. Only complete a new TAY-VI-SPDAT if there has been a major life change. A major life change includes the following: change in household members, change in health diagnoses, additional interactions with emergency services (enough to change the assessment score).
 - If no, complete the TAY-VI-SPDAT v1.0.

Carefully review each of the points below with the participant, helping them to understand what the Assessment is:

- Review both the HMIS Release of Information and the Coordinated Entry Release of Information.
- Inform the participant the assessment involves a series of questions. The purpose of these questions is to determine the order in which people may be contacted for housing units with or without supportive services. It should take between 10 to 20 minutes.
- Emphasize that even by completing this assessment and being placed on Dane County's Housing Priority List, this *does not guarantee housing*. Ensure the participant understands that it is very important they continue trying to become housed in other ways, and that they do not wait to be potentially housed from this list alone.
- Explain that this Assessment is not like a normal housing application, i.e., there is nothing they can say "yes" to that would hurt their chances of becoming housed.
- Let the participant know that some of the questions are sensitive in nature and may be difficult. Inform the participant that this assessment is focused on vulnerability, so as much as they feel able, encourage them to provide accurate responses so that the Assessment can work to their best benefit. Let the participant know they can refuse to answer any of the questions.
- Make sure to get explicit consent to participate.
- Ask if the participant has any questions.

Complete paperwork in the following order:

1. Release of Information
 - Participant signs and dates
 - Provide your information as a witness, including your agency affiliation
2. Basic information about the participant needed to complete the Assessment in HMIS
3. TAY-VI-SPDAT: It is vital to engage with the participant throughout this process and remain an active listener.
 - You must ask questions as they are written, and in the order they are listed. However, it is okay to repeat questions and to provide clarification on any questions the participant finds unclear.
 - When questions are limited to a specific time frame, i.e. "In the past 6 months...", count back 6 months and include the name of the month, i.e. "In the past 6 months, or since January..." This can help clarify what time frame you are asking about.
 - Please remember that this is a self-report assessment; record the answers the participant gives. Again, encourage the participant to be as honest as they are able.
