Records must show entries/exits at Shelters.<br>
An answer of “Yes” to the question as to whether the individual is chronically homeless (Universal Data Element 3.917) is not sufficient. | Signed certification by the individual seeking assistance describing how they meet the definition, which must be accompanied by the intake worker’s documentation of the living situation and the steps taken to obtain evidence to support it. |

Remember that for each Project:<br>
- 100% of households served can use self-certification for 3 months of their 12 months,<br>- 75% of households served need to use 3rd Party documentation for 9 months of their 12 months, and<br>- 25% of households served can use self-certification as documentation for any and all months.

### When do you need third party documentation?

- Preferred to record all occasions of homelessness to document Chronic Homelessness.
- Not necessary to record breaks in homelessness, these can be based on self reports.

June 2019
An individual is defined by HUD as “Chronically Homeless” if they have a disability and have lived in a shelter, safe haven, or place not meant for human habitation for 12 continuous months or for 4 separate occasions in the last three years (must total 12 months). Breaks in homelessness, while the individual is residing in an institutional care facility will not count as a break in homelessness. Additionally, an individual who is currently residing in an institutional care facility for less than 90 days and meets the above criteria for chronic homelessness may also be considered chronically homeless. Lastly, a family with an adult/minor head of household who meets the above mentioned criteria may also be considered chronically homeless, despite changes in family composition (unless the chronically homeless head of household leaves the family).

* Please be advised that if you answered YES, that for at least 75% of the households assisted by a recipient in a project during an operating year, no more than 3 months can be self-certified.
