Executive Summary

Recent progress made in our community, as well as others across the nation, has affirmed that ending homelessness is an achievable goal. An end to homelessness does not mean that no one will ever experience a housing crisis again. Changing economic realities, the unpredictability of life events, and unsafe or unwelcoming family environments may create situations where individuals, families or youth could experience, re-experience, or be at risk of homelessness. (*Opening Doors*, Federal Strategic Plan to Prevent and End Homelessness, 2015)

In 2015, Madison Mayor Paul Soglin accepted the *Mayors Challenge* to end veteran and chronic homelessness in our community. Since then, Madison/Dane County Continuum of Care (CoC) has partnered with Dane County, United Way, Veterans Administration, and the City of Madison in the national *Zero Initiative* and made significant progress toward reducing veteran and chronic homelessness. The implementation of the *Zero Initiative* was a response to HUD's 2015 amendment of its Strategic Plan to Prevent and End Homelessness. The amended national plan was centered around the belief that "no one should experience homelessness, no one should be without a safe, stable place to call home".

The goal of ending homelessness means that our community will have a systematic response in place that ensures homelessness is prevented whenever possible or is otherwise a rare, brief, and non-recurring experience. The CoC's Vision Statement, as adopted in the 2016 Community Plan to Prevent and End Homelessness in Dane County, states: All households in Dane County should have the opportunity to secure and maintain safe, stable and affordable housing. Our community will achieve that through the following four goals:

- I. Prevent Homelessness
- II. Support People Experiencing Homelessness
- III. End Homelessness
- IV. Collaborate with Local, State and National Partners

The 2016-17 annual report on homeless services presents data that is entered into the Homeless Management Information System (HMIS). HMIS collects real-time data from agencies that operate nearly all of the homeless programs in Dane County. The CoC's annual report, and data contained within it, are submitted to the Department of Housing and Urban Development (HUD). The report has been revised to coincide with changes in HUD's reporting requirements and to align with its October 1 –September 30 fiscal year.

It is important to note that this report does not contain information about all homeless persons in the community. For example, it does not capture data about persons who are served solely by the small number of agencies or programs that don't utilize HMIS – such as Domestic Abuse Intervention Services (DAIS), St. Vincent de Paul (Port St. Vincent de Paul & St. Elizabeth Ann Seton House) and those receiving HUD Section 8 vouchers through Veterans Affairs Supportive Housing (HUD-VASH) – or by faith communities or grassroots organizations. Nor does the report include information about those who lack

stable housing but might be living with friends or family, self-paying in hotels or existing without shelter and not interacting with service providers utilizing HMIS.

Prevent Homelessness

Homeless prevention assistance includes rental assistance and housing relocation and stabilization services necessary to prevent an individual or family from seeking emergency shelter, or being forced to live on the streets, or a place not meant for human habitation. This assistance can take the form of direct financial aid or other services. Local providers include:

Providers of financial assistance:

- Tenant Resource Center
- Porchlight: DIGS Program
- Community Action Coalition
- YWCA Madison

Providers of services, legal advocacy and mediation:

- Briarpatch
- Legal Action of Wisconsin
- Tenant Resource Center

The following graph presents historical data describing the number of persons receiving Prevention Services

Support People Experiencing Homelessness

Street Outreach

Street outreach workers engage with unsheltered homeless people in order to connect them with emergency shelter, housing, or other critical services. Street outreach services are provided in non-facility-based settings for unsheltered homeless people who are unwilling or unable to access emergency shelter, housing or an appropriate health facility. Outreach providers work with clients to build effective relationships, help meet basic and safety needs, connect with available community services and access emergency while developing a plan to secure permanent housing. Local providers of these services include:

- Briarpatch
- Porchlight
- Tellurian
- Tenant Resource Center
- Operation Welcome Home

The following graph shows historical data regarding the number of people served by Street Outreach.

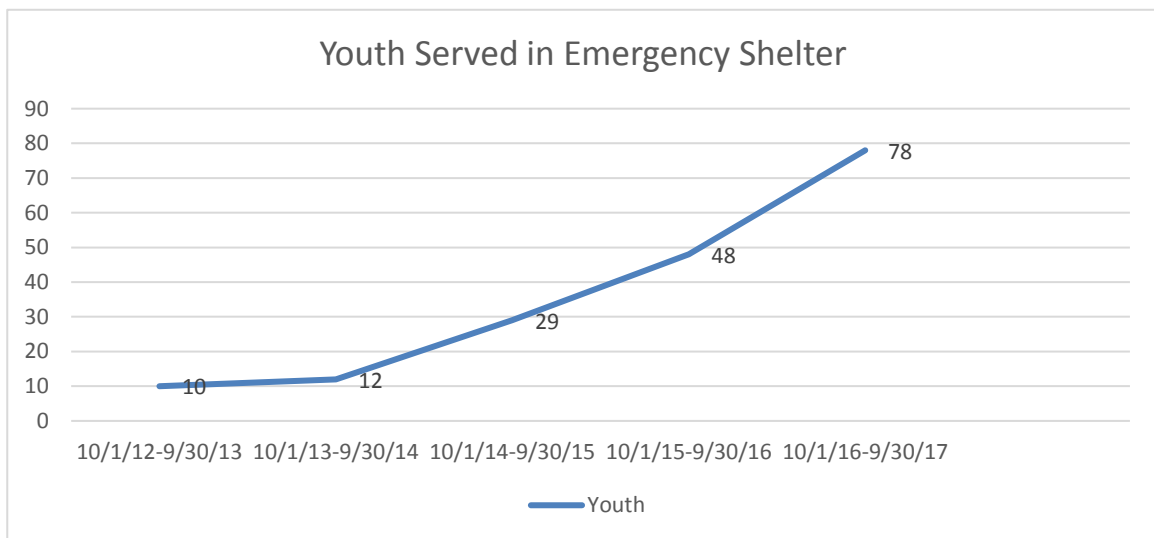

Emergency Shelter

The purpose of emergency shelter is to provide a safe, short term, nighttime residence for homeless persons, and help them find safe affordable housing outside the shelter. Emergency Shelter providers included in the data are:

- Briarpatch: Youth Shelter
- Porchlight Inc.: Men's Shelter
- The Road Home of Dane County: Family Shelter
- The Salvation Army: Women's Shelter and Family Shelter
- YWCA Madison: Family Shelter

Total Served in Emergency Shelter

	Served in Shelter 10/1/2012- 9/30/2013	Served in Shelter 10/1/2013- 9/30/2014	Served in Shelter 10/1/2014- 9/30/2015	Served in Shelter 10/1/2015- 9/30/2016	Served in Shelter 10/1/2016- 9/30/2017
Total # of Single Adults	1,709	1,639	1,683	1,589	1,591
# of Individuals in Families	1,258 with 761 children	1,169 with 697 children	1,056 with 630 children	1,097 with 649 children	1,078 with 602 children
# of Youth <18 years	10	12	29	48	78
Total	2,977	2,820	2,768	2,734	2,747

Transitional Housing

Transitional Housing (TH) facilitates the movement of homeless individuals and families to permanent housing within 24 months of entering TH. Programs will provide safe, affordable housing that meets participants' needs. Transitional Housing providers included in the data are:

- Briarpatch: Transitional Living Program
- Porchlight Inc: STABLE Program, Transitional Housing (Non-HUD), VA Grant Per Diem: Spring Street
- CareNet Pregnancy Center of Dane County: The Elizabeth House
- The Road Home: Second Chance Apartment Project
- The Salvation Army: Holly House
- Veterans Assistance Foundation: Green Avenue Step Up
- YWCA: Empower Home

Total Served in Transitional Housing

	Served in Transitional Housing 10/1/2012- 9/30/2013	Served in Transitional Housing 10/1/2013- 9/30/2014	Served in Transitional Housing 10/1/2014- 9/30/2015	Served in Transitional Housing 10/1/2015- 9/30/2016	Served in Transitional Housing 10/1/2016- 9/30/2017
Total # of Single Adults	258	238	264	172	109
# of Individuals in Families	188 with 114 children	175 with 110 children	158 with 98 children	72 with 47 children	129 with 79 children
# of Youth <18 years	0	0	0	0	0
Total	446	413	422	244	238

End Homelessness

Permanent Supportive Housing

Permanent supportive housing is safe, affordable housing, the purpose of which is to provide housing without a designated length of stay. Permanent Supportive Housing providers included in the data are:

- Community Action Coalition
 - Home for Good
 - SHIFT
- Heartland Housing
 - Rethke
- Housing Initiatives
 - Dayton St.
 - Britta Dr.
 - Las Casitas
 - PSH-Housing: Non-HUD
 - Scattered site Shelter plus Care
- StoneBridge Apartments
- Porchlight
 - Pheasant Ridge Trail
 - Nakoosa Trail
 - Porchlight Housing PSH
 - Scattered Sites Housing First
 - Thierer Road
- Tellurian
 - HOPE
 - ReachOut Housing First

- ReachOut Housing First Expansion
- Scattered Sites PHP
- Willy Street SRO
- The Road Home
- Housing and Hope
- YWCA Madison
- House-ability

The 2016 Housing Inventory Chart (HIC) shows that there were 857 beds of Permanent Supportive Housing available in our community. This number includes beds that are not represented in the data below (St. Vincent de Paul and HUD-VASH vouchers).

Total Served in Permanent Supportive Housing

# of Youth <18 years	0	0	0	0	0
Total	609	807	971	889	702

Below is a comparison of numbers served each year between the three program types.

Point-in-Time

The Point-in-Time (PIT) count is a process by which communities attempt to count the number of sheltered and unsheltered homeless persons on a single night each year. HUD requires that Continuums of Care (CoCs) conduct an annual count of homeless persons who are sheltered in emergency shelter, transitional housing and Safe Havens on a single night. In addition, CoCs must conduct a count of unsheltered persons on that same night. The following graph presents historical data showing PIT counts for both sheltered and unsheltered persons.

Spotlight Data

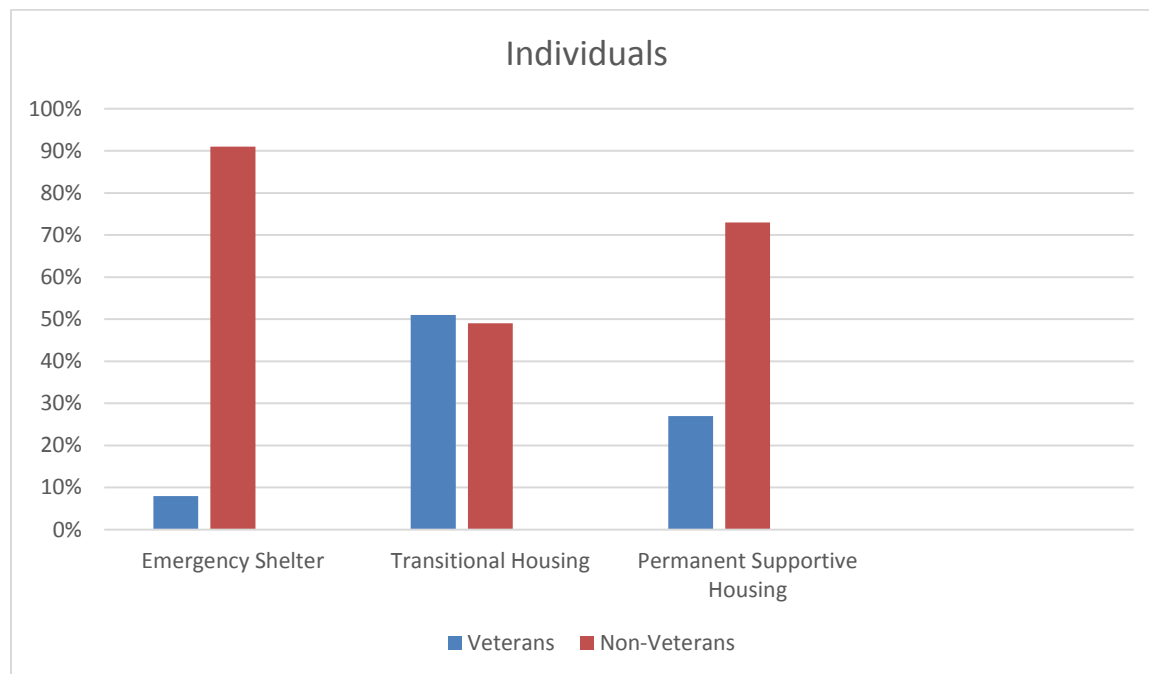

Veterans and Homeless Services

Since 2015, the Madison/Dane County CoC has worked with Dane County, United Way, Veterans Administration and the City of Madison in the national *Built for Zero Initiative*. *Built for Zero* is a national change effort coordinated by Community Solutions that works with a core group of communities to end veteran and chronic homelessness. Our community receives support from *Built for Zero* staff in developing real time data on homelessness, optimizing local housing resources, tracking progress against monthly goals and accelerating the spread of proven strategies. The Madison/Dane County CoC participates in regular calls with Built for Zero staff, receives individual coaching and attends Learning Sessions where we learn new strategies in ending veteran and chronic homelessness. The CoC sets goals for reducing homelessness at each Learning Session.

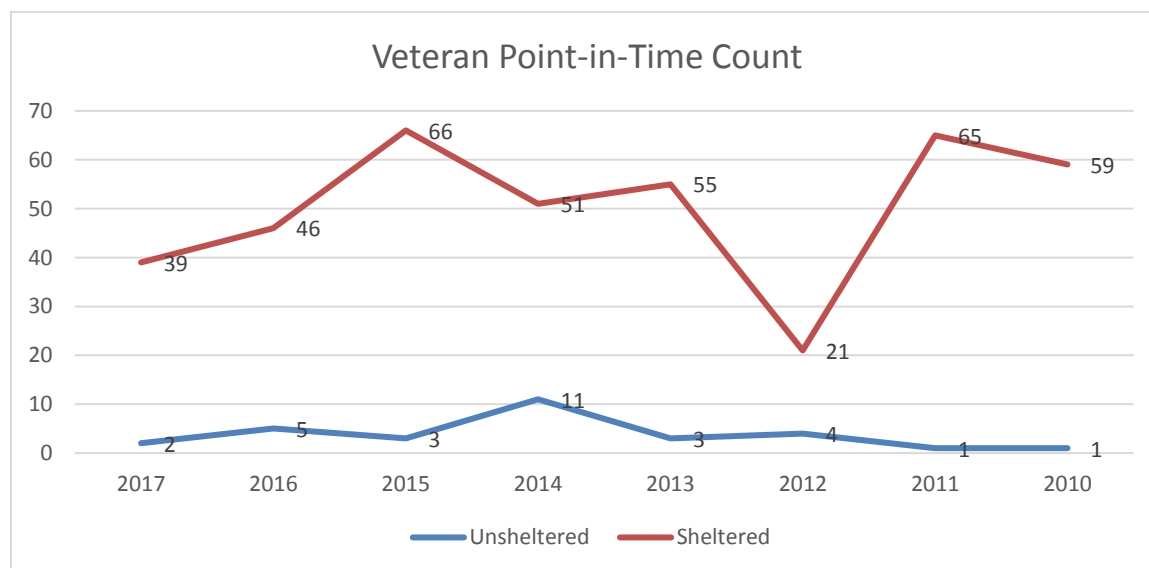

The Madison/Dane County CoC keeps a list of people experiencing homelessness who are Veterans and who meet the definition of chronic homelessness. At biweekly meetings, street outreach specialists,

shelter case managers, and housing providers meet to examine the list and connect people to housing and services. Instead of agencies working in silos, the meetings allow staff to come together as a community to make progress in ending homelessness.

Below is a graph that shows the number of Vets served in Emergency Shelter, Transitional Housing and Permanent Supportive Housing who do not have minor children in the household. The family system does not tend to see many Veterans access services. In emergency shelter and permanent supportive housing, 2% of all those served had a Veteran in the household. There were no Veterans served in transitional housing programs for families.

Below is a historical look at the number of Veterans counted during the January Point-in-Time count

Submitted for the
Department of Housing and Urban Development's
2017 Annual Homeless Assessment Report to Congress**

Introduction

This report on sheltered homeless persons is based on local data submitted to the 2017 Annual Homeless Assessment Report (AHAR). The AHAR is a report to the U.S. Congress on the extent and nature of homelessness in America, prepared by the Department of Housing and Urban Development (HUD). It provides nationwide estimates of homelessness, including information about the demographic characteristics of homeless persons, service use patterns, and the capacity to house homeless persons. Once published, the 2017 AHAR will be found on HUD's Homeless Resource Exchange (<http://www.hudhre.info>).

The AHAR Local Report is meant to be a resource for stakeholders in each community to view their data in a variety of user friendly tables and charts. The report is based primarily on Homeless Management Information Systems (HMIS) data about homeless persons who used emergency shelter, transitional housing or permanent supportive housing programs during the 12-month period between Saturday, October 1, 2016 to Saturday, September 30, 2017. The data are collected in six categories: Persons in Families in Emergency Shelter, Individuals in Emergency Shelter, Persons in Families in Transitional Housing, Individuals in Transitional Housing, Persons in Families in Permanent Supportive Housing and Individuals in Permanent Supportive Housing

All data are based on unduplicated counts, such that each person is counted only once, regardless of how many different programs the person used. Data on length of stay represent the cumulative length of stay for each person within a particular category.

For communities that have all emergency shelter, transitional housing and permanent supportive housing providers using HMIS, the total counts reflect the numbers that those providers reported for the 12 month reporting period. For communities where not all emergency shelter, transitional housing and permanent supportive housing providers are using HMIS, this report provides estimates of the homeless individuals and persons in families in emergency shelter, transitional housing and permanent supportive housing programs. The estimate is an "extrapolated count" and is based on the assumption that beds located in programs that do not participate in HMIS are occupied at the same rate and with the same amount of overlap as beds located in HMIS-participating programs.

Data were only included in the national AHAR if HMIS participation rates for a particular category exceeded 50 percent of total beds. The extent to which extrapolated data are representative of the entire community depends on the validity of the assumption that non-participating programs are similar to participating programs. Some programs may target specific sub-populations (such as veterans or women), and their inclusion or exclusion may skew the overall values in particular questions. This report does not include or purport to extrapolate about persons that are served by "victim service providers" including rape crisis centers, battered women's shelters, domestic violence transitional housing programs, and other programs whose primary mission is to provide services to victims of domestic violence, dating violence, sexual assault, or stalking. This report also does not include those who were living in places not meant for human habitation, such as on the street, in hotels or motels, or in doubled-up living situations, unless these persons also used emergency shelter or transitional housing.

The report includes the following sections:

The Estimated Homeless Counts during a One-Year Period table shows the total estimated yearly count for each reporting period, extrapolated point-in-time counts, estimated utilization and turnover rates, and estimated counts by household type. Further explanation of the extrapolated counts can be found in the Detailed Derivation of Estimated Homeless Counts table. This table explains the steps used to derive the extrapolated counts and includes both a description and source for where the data comes from. The Year (2017) to Year (2016) Estimated Homeless Counts during a One-Year Period table shows the percentage change of the 2017 community data compared to 2016 community data. Further explanation of the extrapolated counts can be found in the Year (2017) to Year (2016) Detailed Derivation of Estimated Homeless Counts table.

The Demographic Characteristics of Sheltered Homeless Persons table provides the percentage of persons reported in category by gender of adults, gender of children, ethnicity, race, age, persons by household size, veteran status (adults only) and disability status (adults only). Graphs for each category are below the table.

The Prior Living Situation of Persons Using Homeless Residential Services table shows the percentage breakdowns of the prior living situation data in each category. The data is categorized by living arrangement from the night before program entry. Living arrangements are categorized by homeless situations, housing situations, institutional settings, and other settings. This table also shows the percentage of the stability of the previous night's living arrangements and the zip code of last permanent address. Graphs for each category are below the table.

The Length of Stay in Emergency Shelter, Transitional Housing and Permanent Supportive Housing for Families and Individuals table shows the percentage breakdown of length of stay for individuals and families in emergency shelter, transitional housing and permanent supportive housing. In each category an individual percentage is given for a specific length of stay as well as a cumulative percentage that show the individual percentages accruing. A graph comparing the categories is below the table.

¹ Families are defined as any household that includes at least one adult over 18 years old and one child who is younger than 18 years old. All other persons, including those in multi-person households consisting of only adults or only children, are reported as single individuals.

² Other factors, such as nightly counts that far exceeded the reported number of beds in the community, may also have caused data to have been excluded from the AHAR.

13	Point-In-Time Extrapolation Factor. This is the factor applied to calculations that are based only on participating providers. It is used to estimate total number of persons served by participating and non-participating providers for values that report Point-in-time numbers. In contrast to the standard "Extrapolation Factor," the point-in-time Extrapolation fact does not include an adjustment for	Step 6 ÷ Step 1	1.0000	1.2045	1.0000	1.0171	1.5000	1.0000	is the extrapolation factor for point-in-time counts.

persons using
multiple
providers.

¹ This reports provides estimates of the homeless individuals and persons in families in Emergency Shelter and transitional housing programs that participate in HMIS, as well as those that do not participate in HMIS. The estimate is an “extrapolated count” and is based on the assumption that beds located in programs that do not participate in HMIS are occupied at the same rate as beds located in HMIS-participating programs. The complete derivation of the total extrapolation factors is detailed in the next table.

Adding values across categories will double count persons who appeared in multiple types of programs.

The estimates do not include persons that are served by "victim service providers," including rape crisis centers, battered women's shelters, domestic violence transitional housing programs, and other programs whose primary mission is to provide services to victims of domestic violence, dating violence, sexual assault, or stalking.

² These results are generated by multiplying the HMIS data by the Extrapolation Factor (Step 11, in table 2.)

³ These values are generated by multiplying the HMIS data by the Point-In-Time Extrapolation Factor (Step 13, in table 2.)

⁴ These results are generated by multiplying the HMIS data by the Extrapolation Factor (Step 11, in table 2.)

⁵ These values are generated by multiplying the HMIS data by the Point-In-Time Extrapolation Factor (Step 13, in table 2.)

⁶ These results are generated by dividing the HMIS data on persons on an average night by the total beds in HMIS.

⁷ These results represent the average number of people who use each bed. It is generated by dividing the unduplicated count of persons recorded in HMIS, by the total number of beds in HMIS

⁸ These results are generated by multiplying the HMIS data by the Extrapolation Factor (Step 11, in table 2).

* This value is generated by multiplying the sum of the extrpolated number of persons in each category by an overlap factor, which accounts for persons who use multiple categories. This value is based on the overlap rates among participating programs and adjusted to account for possible overlap in non-participating providers. In this site the adjustment factor is: For the PIT. These values are generated by adding the point in time counts across categories. It is assumed that persons do not appear in multiple programs on the same night.
