Extension of resources for vulnerable individuals who are unhoused during Pandemic. (Funding extended to the end of December, pending final approval). Some examples: repurposing hotels to SRO or apartment units specifically for this population, Tiny Homes, extending hotel vouchers, and including campground ordinance (waive fees and time limits). As of today, 7 committees have voted in favor. Heidi will inform us of upcoming committees voting. The committee will send alerts to HSC.

Additional ideas on how E&A/HSC can support: get the word out and ask send a letter of support to supervisors, think proactively about possible development partners.
