

## 2018 JULY POINT-IN-TIME Madison/Dane County CoC

### I. BACKGROUND

The Point-in-Time Count of Homelessness (PIT) provides a snapshot of people who are experiencing homelessness on a given night in a community. The Madison/Dane County Continuum of Care (CoC) conducts PIT counts twice a year, on the fourth Wednesday of January and July.

The PIT has two components:

- Unsheltered counts capture information on people who are sleeping outside, in a vehicle, in a tent, or other places not meant for human habitation. Teams of volunteers go to “known locations” on the night of PIT and conduct surveys. An additional post-count is conducted at strategic locations following the PIT.
- Sheltered counts collect information on people who are sleeping in emergency shelters and transitional housing programs. Most of the information is gathered from the Homeless Management Information System (HMIS) used by nearly all homeless programs in Dane County. Community partners that do not use HMIS submit comparable reports to the CoC.

This year’s July PIT Count was on the night of July 25, 2018. The weather was mild for the unsheltered count: high of 84, low of 59, and around 70 degrees during the main part of the count (10pm-2am).

It is important to note that this enumeration is one way of understanding the levels and trends of homelessness in our community. Since the PIT is a snapshot of homelessness for one night, many more people experiencing homelessness over the course of a year are not counted in the PIT. A separate report, Annual Homeless Assessment Report (AHAR), captures the unduplicated number of people served in the homeless services agencies using HMIS throughout the year. The community’s Coordinated Entry Housing Priority Lists identify the number of people who reported being homeless and in need of housing. The PIT is also limited in scope. It is not possible to identify all locations where people are sleeping in unsheltered situations. The actual number of people who are experiencing homelessness is undoubtedly higher than the number listed in the count. The PIT also does not capture comprehensive information about people who are doubled up, staying in hotels, or institutions.

### II. SUMMARY FINDINGS

The 2018 July PIT identified a total of 640 persons experiencing homelessness: 187 persons in 54 family households, 450 persons in single households, and 3 unaccompanied youths. The following changes were noted compared to the 2017 July PIT count:

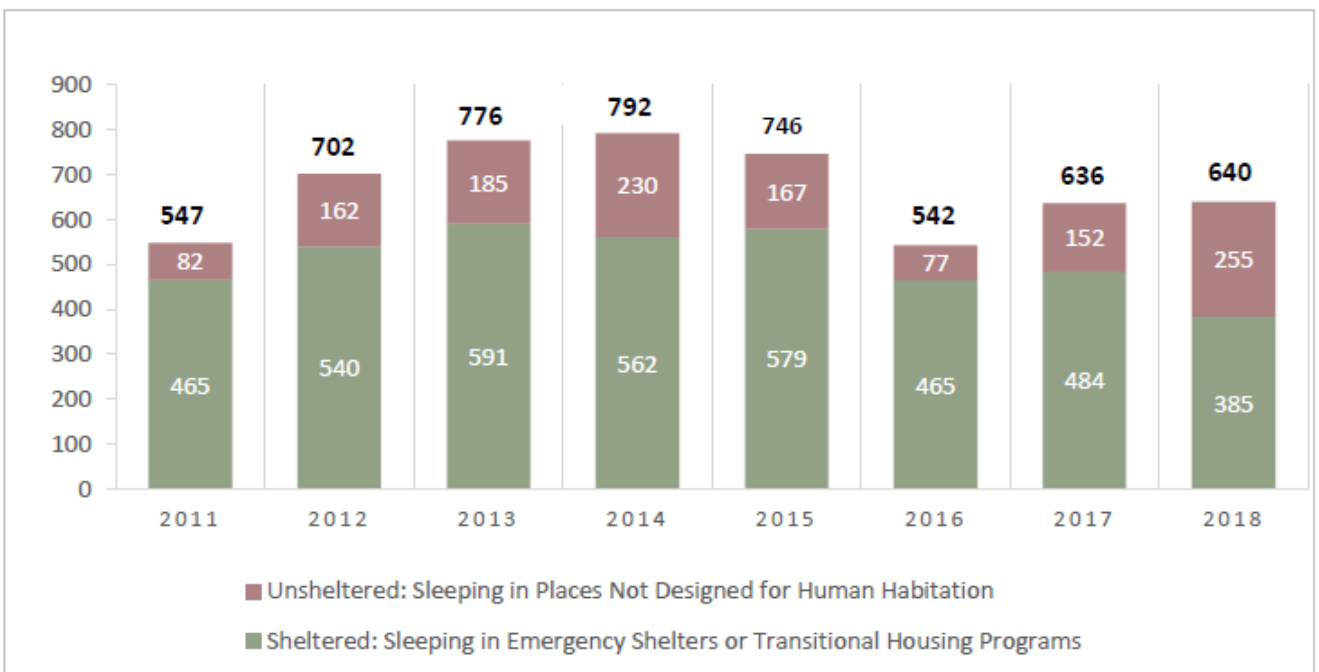

- Increase overall of 0.6% or 4 persons
- Decrease for families of 31% or 84 persons
- Increase for singles of 24% or 87 persons
- Decrease for chronically homeless of 10% or 13 persons
- Increase for veterans of 29% or 11 persons
